and Development (MISD)

This research deals with the issue of benevolence from an Islamic perspective, and it aims to answer the question: How does Islam view benevolence towards non-Muslims? The current study aims to clarify the role of the Senussi Endowment in the scientific and military fields in Libya during the period of the founding of Zawiyat al-Bayda in Barqah in 1843 until the fall of the Senussi state in 1969. The educational interruption imposed on Moroccan universities during the lockdown of Covid-19, has accelerated the use of Information and Communication Technologies for Educational Purposes (Ed-ICTs) and the transition from classical studies to Distance learning (DL). The current report critically analyzes drama teaching-learning methods to enhance creative thinking among school students. The report covers the main techniques used in drama integration teaching methods. Two types of drama integration techniques are used. One is the technical framework, and the other is a psycho framework. Both collaborate and brings acquired results.
